Turkish Foundry Association (TÜDÖKSAD)

TÜDÖKSAD in Brief

Turkish Foundry Association (TÜDÖKSAD) is founded in 1976 by leading foundry industrialists and companies with the aim of providing support to enhance the economic progress of the metal casting industry and assisting its member companies to effectively manage all production operations and profitably market their products and services.

TÜDÖKSAD is a non-governmental organization with voluntary membership, which represents the leading firms, industrialists and managers of the foundry business. Our Association, covering all of the largest foundries and most of the SMEs as our members, have 121 member foundries and 36 associate members.

Turkish foundry sector is actively represented by TÜDÖKSAD in national and international platforms. TÜDÖKSAD promotes the interests of the metal casting industry in front of the related executive branches of the government. TÜDOKSAD members are actively participating to sectional committees and decision making bodies in national chambers of commerce and industry, hence contributing to the shaping of the national policies and priorities affecting the foundry industry.

TÜDÖKSAD is a member of the World Foundry Organization (WFO) since 1989 and became a member of The European Foundry Association (CAEF), the organization union of the European foundry industry, in 2007. TÜDOKSAD supports the biannual Ankiros, Annofer, TurkCast and Aluexpo fairs.

Turkish Foundry Sector

Turkish foundry sector acts an important role in world casting production, as well as in Europe. According to AFS's 52nd Census of World Casting Production, after Germany and Italy, Turkey has taken 3rd place in Europe and 11th place in global. The Turkish foundry production reached 2.25 million tons in 2018, with an export value of above 3.5 billion Euros with 1.384.000 tons.

Turkish Foundry Industry In Numbers							
	2013	2014	2015	2016	2017	2018	Change %
Grey Iron	600.000	650.000	675.000	650.000	720.000	602.971	-16,25
Ductile Iron	508.000	610.000	645.000	655.000	825.000	912.890	10,85
Steel	135.000	140.000	150.000	166.000	170.000	192.372	13,16
Non Ferrous	300.000	350.000	380.000	427.500	440.000	546.987	24,32
Total Production (tons)	1.543.000	1.750.000	1.850.000	1.898.500	2.155.000	2.255.220	4,65

TÜDÖKSAD by numbers

121 TÜDOKSAD member foundries account for 85 % percent of Turkish total foundry output and they realize 90 % export of the Turkish castings.

Iron foundries (67) produce %70 of all iron castings in Turkey and export %85 of all iron castings from Turkey.

Steel foundries (33) produce %90 of all steel castings in Turkey and export %98 of all steel castings from Turkey.

Non ferrous foundries (19) and **HPDC foundries** (28) produce %80 of non ferrous castings in Turkey and export %90 of all non ferrous castings from Turkey.

Investment Casting Foundries (7) produce %98 of all investment castings in Turkey and export %95 of all investment castings from Turkey.

Foundry Suppliers and Associate Members (36) All of the leading raw and auxiliary material producers, equipment and machinery suppliers and engineering and service representing companies are also members of TÜDÖKSAD.
